c/o Node Center Berlin - works presentation

Arte Contemporanea dell' artista Leonardo Leporatti, diplomato presso l' Istituto d'Arte di Porta Romana, Firenze.

Le opere rappresentano elaborazioni grafiche al computer e fotografia digitale, gli elaborati vengono successivamente stampati in grande formato, nelle rispettive misure su materiale Aluminium-Dibond, Carta fotografica o Canvas.

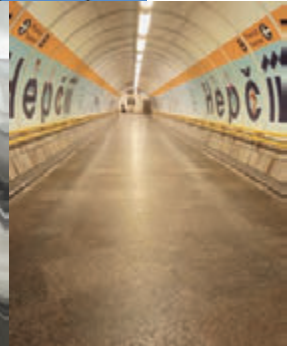

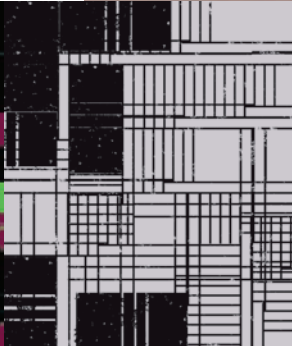

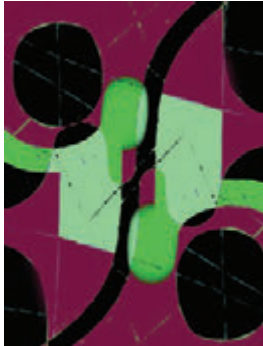

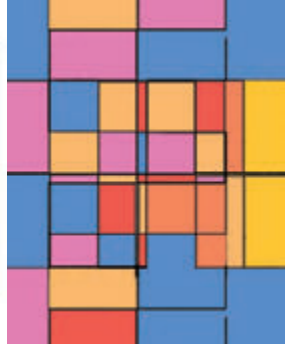

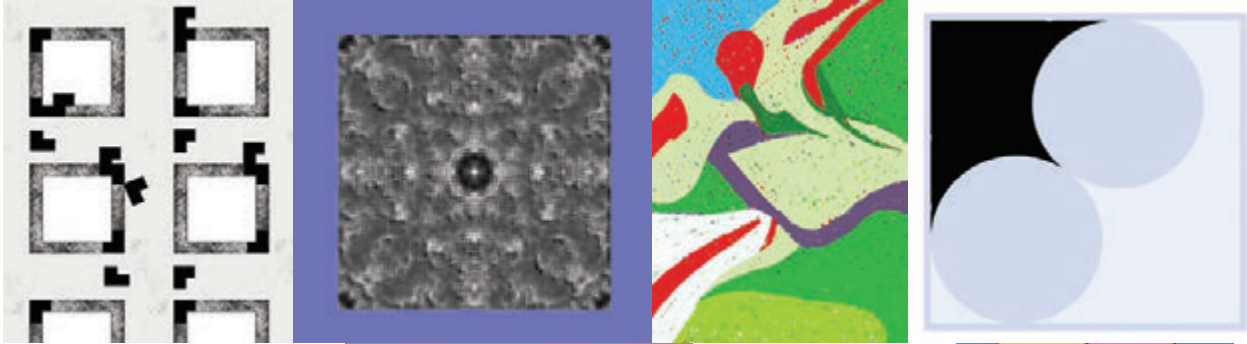

Il più delle volte un paesaggio reale ne incontra uno immaginifico e viceversa, una architettura che viene trasposta in equilibrio aureo tra forme e rilievi virtuali dove le strutture si concretizzano tra un pixel e l'altro.

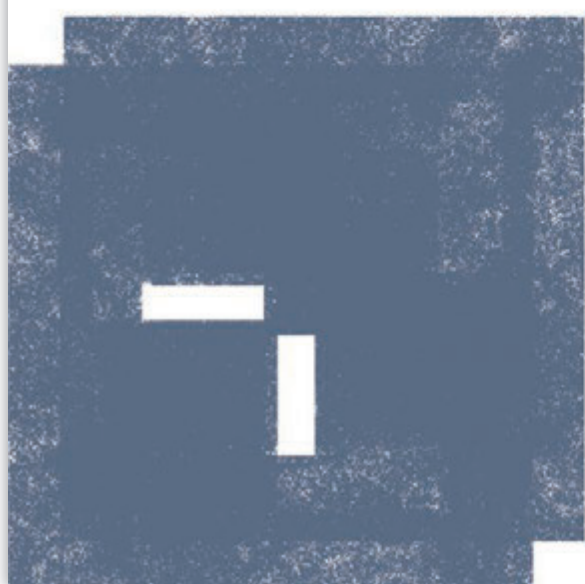

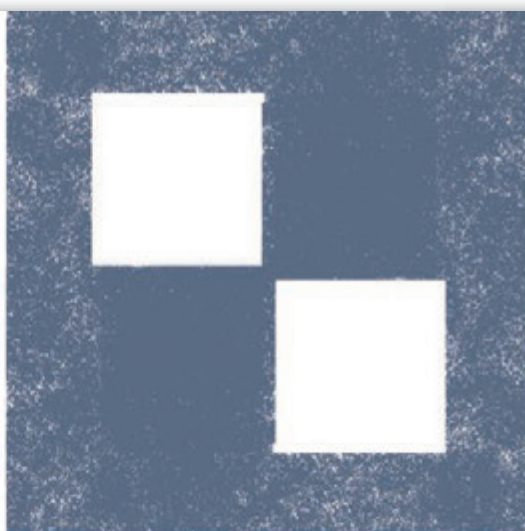

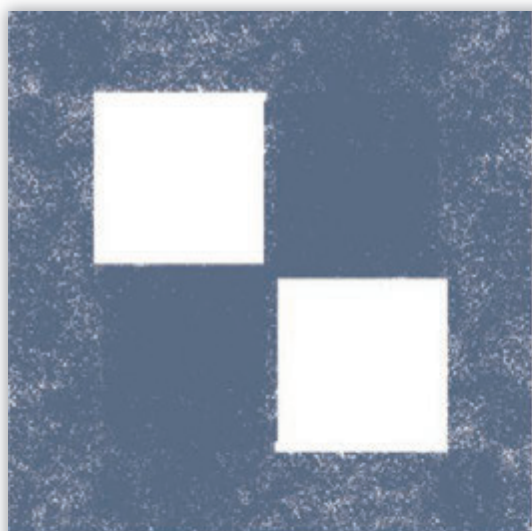

Contemporary art by the Italian artist Leonardo Leporatti, graduated in Art high school of Porta Romana, Florence.

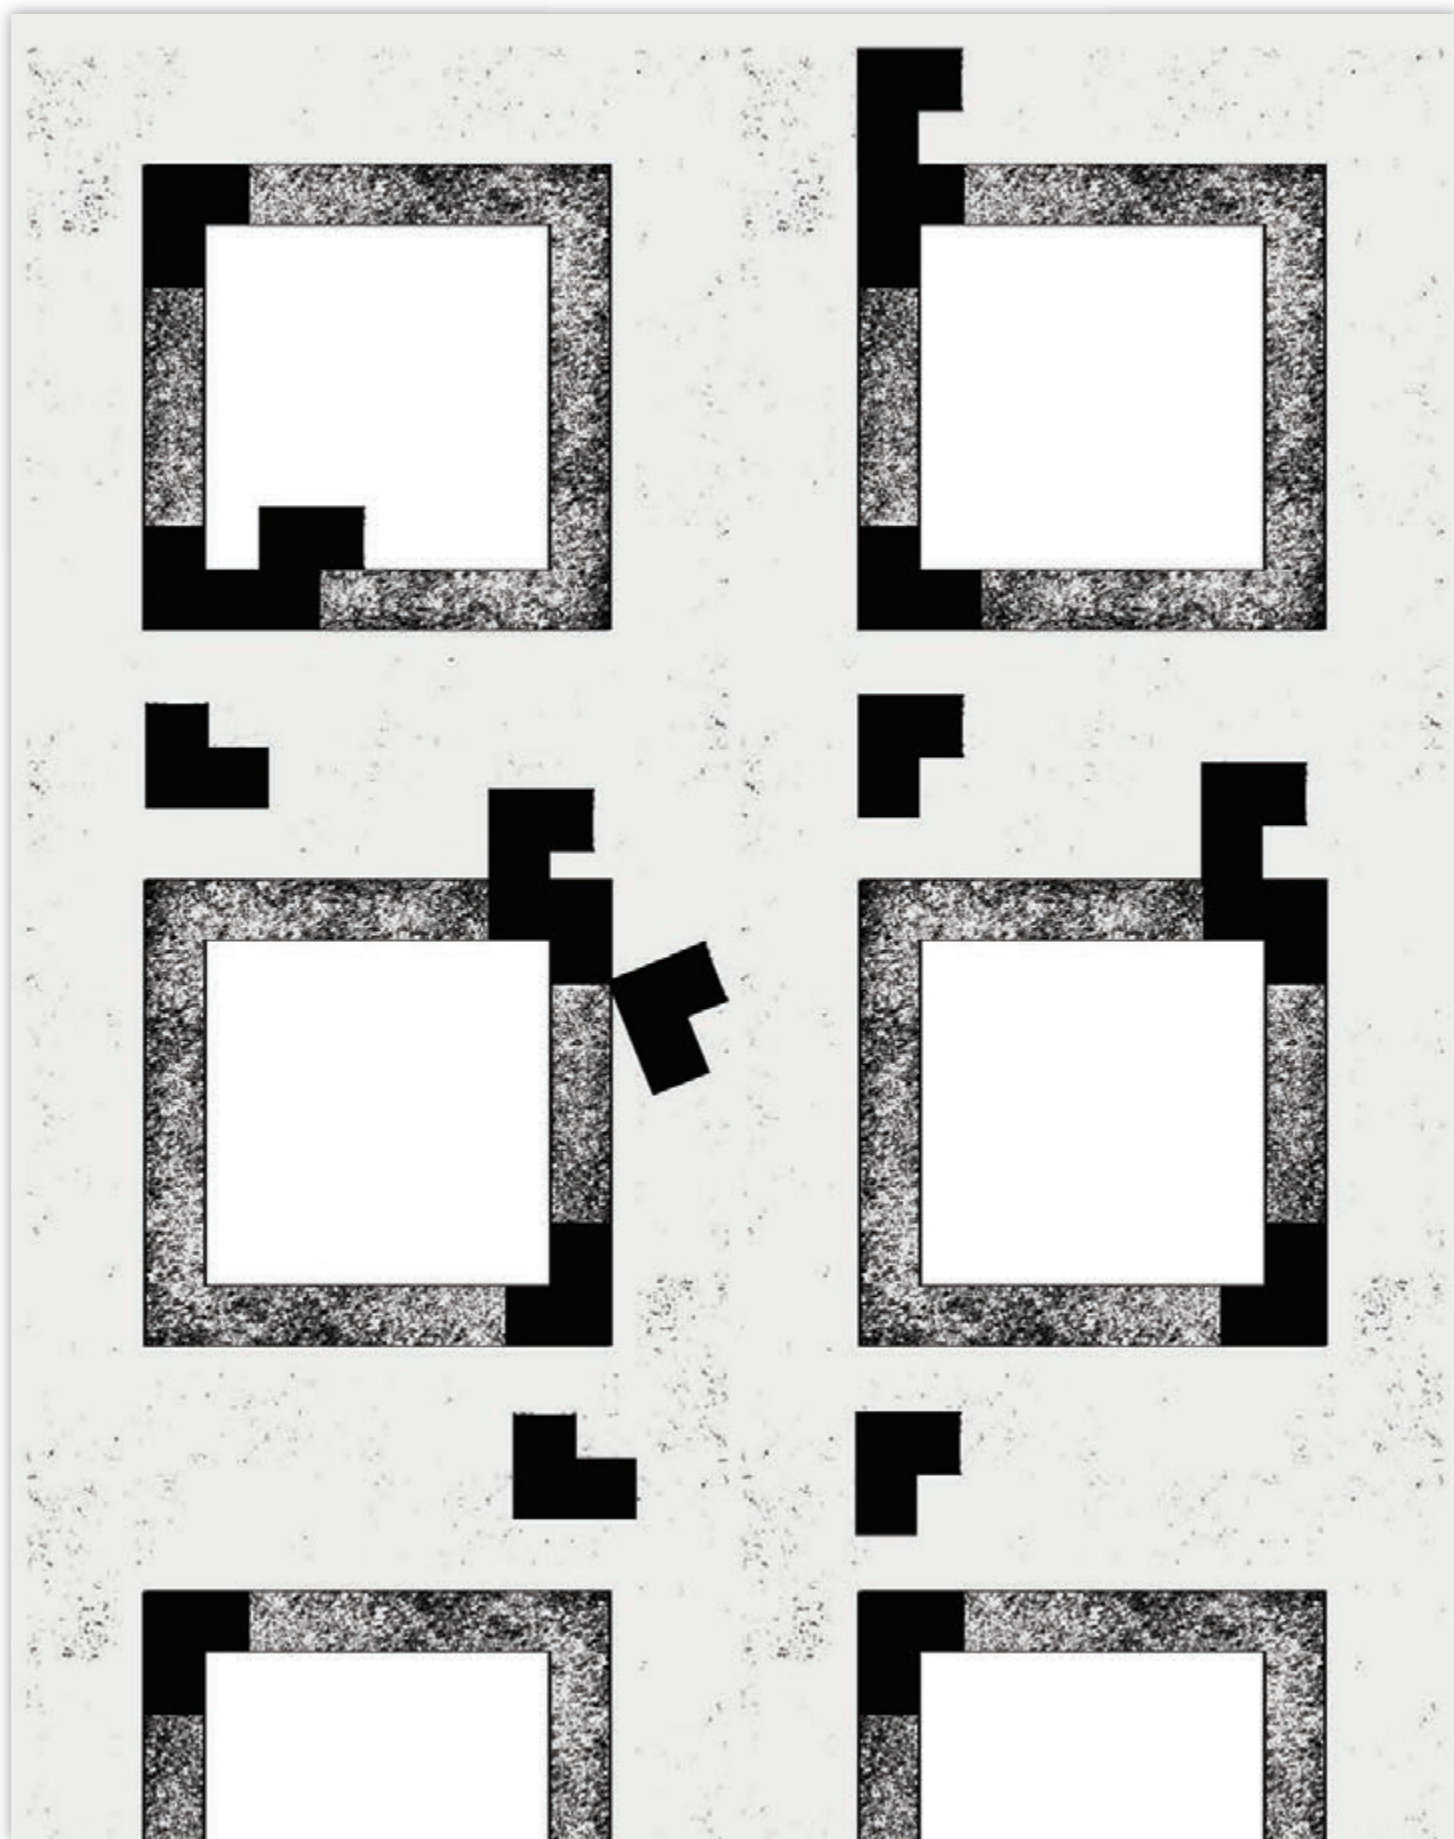

The works represent computer graphics and digital photography, works printed on Aluminium-Dibond, Photographic paper or Canvas.

A real landscape meets an imaginary world, an architecture represent the balance between virtual shapes and drawing traces, and the structures been materialize from the pixel to other them.
